Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/565,715	Applicant(s) CHAVEZ ET AL.	
	Examiner REBECCA LEE	Art Unit 1793	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

Claim 7 is withdrawn, claims 1-6 are presented for examination where claim 1 is amended in view of amendment filed 09/04/09.

Status of Previous Rejections

The 35 U.S.C. 103(a) rejection of claims 1-6 as being unpatentable over Huege et al. (US5616283) has been maintained.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-6 are rejected under 35 U.S.C. 103(a) as obvious over Huege et al. (US5616283).

Huege et al. is applied to instant claims 1-6 as set forth in the 05/07/09 office action.

Response to Arguments

Applicant's arguments filed 09/04/09 have been fully considered but they are not persuasive.

Applicant traverses the rejection on the ground that the specific surface area disclosed by Huege et al., which broadly encompass the claimed range, is only referred to external specific surface area, while the BET specific surface area recited in the instant application includes internal specific surface area. However, no evidence showing that the solid matter in Huege et al. is in fact porous. With the solid matter in Huege et al. being non-porous, or with negligible porosity, the specific surface area of Huege et al. reads on the claimed specific surface area recited in instant claims bases on broadest reasonable interpretation. Thus, applicant's argument is not convincing.

Applicant's declaration filed 09/04/09 has been entered, but is not sufficient to overcome the rejection because, the declaration only shows the difference between the specific surface area and BET specific surface area in a porous matter, as stated above, with the solid matter in Huege et al. being non-porous, or with negligible porosity, the specific surface area of Huege et al. reads on the claimed specific surface area recited in instant claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1793

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
